Dr. Tashua Lederberg  
Department of Genetics  
Stanford University School  
of Medicine  
Stanford University  
Palo Alto, California

Dear Dr. Lederberg:

I am interested in learning more about the subsample of educationally retarded persons you have extracted from the census 1/1000 topics.

I am using the Census sample to study the effect of education on employment and income and would be most interested in your definitions and procedures for detesting the "educationally-retarded."

Sincerely yours,

Arnold Katz  
Assistant Professor  
Dept. of Economics
